

Mandatory Directive:

Capacity Limitations Instructions from SCC

For more information and details, visit sccgov.org/cv19order

- 01 Determine whether your facility may operate indoors.
- 02 Determine whether your facility is subject to a specific Health Office indoor capacity limitation.
- 03 Calculate your indoor capacity limit.
- 04 Create Reduced Maximum Capacity signage for your facility.
- 05 Post Reduced Maximum Capacity signage at the entrance to each capacity-limited indoor room area.
- 06 Develop & implement "metering" procedures to ensure the number of people inside your facility does not exceed your Reduced Maximum Capacity.
- 07 Make sure your Reduced Maximum signage stays up to date.
